

Material Submissions

These are the items that you will need to submit to your college office, program coordinator or the Study Abroad Center, either in person or by mail. You should click on each item for a complete description, where to submit the item, and any forms you may need to download. These items may vary depending on the program you are applying to, but examples include your official transcript and the application fee. We prefer that you submit as many material submissions at one time as possible. Once we have received a material submission, you will see a checkbox appear next to the item in the "Received" column.

Some of the items may be events (e.g. pre-departure orientation) you must attend. In this case, your program coordinator will check these items off when you have fulfilled the requirement.
